

LIST OF NEUROMUSCULAR REFERENCE CENTERS

Neuromuscular reference centers bring together a team of medical and paramedical experts in the field of neuromuscular diseases. The centers are there to organize multidisciplinary consultations in coordination with your doctors and paramedical agents. In Belgium, 7 reference centers are recognized by the NIHDI.

NMRC CHR de la Citadelle

Boulevard du 12ème de Ligne 1, 4000 Liège
04/321.83.15 - secretariat.crmn@citadelle.be

NMRC Cliniques Universitaires Saint-Luc

Avenue. Hippocrate 10/13.11, 1200 Bruxelles
02/764.13.11 - bnmdr@saintluc.uclouvain.be

NMRC Hôpital Universitaire de Bruxelles (HUB)

ULB Hopital Erasme

Route de Lennik 808 - 1070 Brussels
02/555.81.25 - neuromusculaire.erasme@hubruxelles.be

ULB HUDERF - UKZKF

Av Jean-Joseph Crocq 15- 1020 Brussels
02/477.28.60- secretariat.neuromusculaire@hubruxelles.be

NMRC UZ Antwerpen

Drie Eikenstraat 655, 2650 Edegem
Adults: 03/821.44.23 - neuromusculaire@uza.be
Children: 03/821.34.20 - nmrc.kinderen@uza.be

NMRC UZ Brussel-Inkendaal

Site UZ Brussel

Laarbeeklaan 101, 1090 Brussels
Adults: 02/477.60.12 - NMRCvolwassenen@uzbrussel.be
Children: 02/476.32.94 - NMRCkids@uzbrussel.be

Site Inkendaal

Inkendaalstraat 1, 1602 Vlezenbeek
02/531.53.17 - coordinatieNMRC-AOT@inkendaal.be

NMRC UZ Gent

C. Heymanslaan 10, 9000 Gent
09/332.62.29 - secretariaatnmrc@uzgent.be

NMRC UZ Leuven

Herestraat 49, 3000 Leuven
Adults: 016/34.35.08 - nmrc@uzleuven.be
Children: 016/34.38.27 - NMRC.kinderen@uzleuven.be

BELGIAN NEUROMUSCULAR DISEASES REGISTRY

Belgian NeuroMuscular Diseases Registry (BNMDR)

INFORMATION BROCHURE FOR PATIENTS

Neuromuscular diseases are rare diseases
but are affecting more than
250 000 people in Europe

**Together
we can make a difference.
Join us!**

THE REGISTRY, A COOPERATIVE WORK AMONGST US

WHAT IS THE BELGIAN NEUROMUSCULAR DISEASES REGISTRY?

The Belgian Neuromuscular Diseases Registry, known as BNMDR, was initiated in 2008. It is a collaborative project between the NIHDI, the reference centers for neuromuscular diseases and Sciensano.

The registry contains medical data from patients diagnosed with a neuromuscular disease. The information is collected each year by the reference centers.

The information is only collected from patients who gave their consent. Data are stored securely and remain anonymous.

The aims of the registry are to:

- Study the epidemiology of neuromuscular diseases;
- Facilitate clinical research;
- Inform public authorities of the importance of improving health care services for patients with these diseases;
- Provide data to ensure access or evaluate effectiveness of disease modifying therapies.

WHY IS MY ENROLMENT IMPORTANT FOR THE REGISTRY?

- Your reference center could contact you when patients are recruited for clinical trials.
- Your participation will advance the understanding of these rare diseases and their management.

WHAT DO I NEED TO DO TO SIGN UP?

If you want to participate in this project, **register in one of the 7 reference centers**. You can also obtain more information by contacting patient associations (see contact information overleaf).

Additional information is collected for patients suffering from **Spinal Muscular Atrophy (SMA)** or **Duchenne Muscular Dystrophy (DMD)**.

The BNMDR collects this information through a collaboration with the international network TREAT-NMD and thus enables the recruitment of patients for clinical trials.
